Dear Athan,

10/23/84

The doctoral candidate who is using my Commission file is here and has located the Hoover testimony transcript. He is going through that file from its beginning. I asked him to be alert to any farout Hoover comments that might interest you. It may be that one or two may be duplicates or not of special interest, but there are not many such pages. We also did not copy the unedited transcript. While ~~it~~ I think you have no need for it, if you do it is 169[illegible].

I've also found a letter I wrote you a month ago and lost under a stack on my desk before I could mail it. Sorry.

We'll make up a bill and enclose it. I've have to guess at the postage. If it seems to be out of line, please let me know."

And if you can think of any other way I may be able to help.

Best wishes,

Harold
